

The Value of Christ's Resurrection!

Study Outline – Grace Bible Chapel
1st Corinthians 15 – Resurrection Sunday
March 31st 2024

As we focus on our Lord's glorious resurrection, we will peruse through the great chapter (1 Cor. 15) on this subject and consider the value of His resurrection. Our Lord is the "first fruits" of resurrection for all who believe. Without Him doing what He did in dying on the cross and rising on the third day there would be no hope for any person. From our vantage point it is not possible for us to comprehend God's limitless creative power in relation to resurrection, and life-giving ability. How can a decaying and disorganized body be restored to life? And how is it possible for life to come out of death? We are addressing infinite matters, but it is a God created reality of which everything for the Christian hangs on the fact that Christ defeated death by rising from the grave. We will attempt in some small way to show the infinite value of what Christ did on our behalf by His resurrection.
